Inbox Title: Safety and Environmental Management Systems
1 A complete SEMS approach is the best option 2 A company
certificated by MMS shall verify the implantation of the program on
behalf of MMS. This might be more feasible and economical. 4
Comment: Operators shall demonstrate their plan to MMS by using sound theories
and latest technology, reliable statistic data, and/or proved experience. 5
MMS will verify the operator plan and request further clarification if not
satisfied. 6 The final approval/disapproval will be based on if the
operator can reasonably demonstrate their plan to MMS satisfactory.
